- Good knowledge about **JSP Element.**
- Strong in **JSP Life Cycle.**
- Solved many examples using **MVC Design pattern.**

HTML/CSS:**Core Skills:**

- **HTML5, CSS3, JavaScript**
- Website **architecture and design**
- Debugging and **cross- browser compatibility testing**

Programming languages:

- C, C++, Java

Web Technologies:

- HTML5, CSS

Data Management:

- MySQL, MS Access

Academic Project :**Description:**

A **Real Estate Property Management System** is a software application that helps real estate professionals manage their properties and clients more efficiently. The system provides a centralized platform for managing property listings, tenant information, lease agreements, and maintenance requests. It also allows property managers to track rent payments, generate financial reports, and communicate with tenants. The system can be customized to meet the specific needs of different types of properties, such as residential, commercial, or industrial.

Internship :

Java Programming at CodeSoft(Virtual Internship)

Co-Curricular Activities :

- Participated in Quiz Competition on college level.
- Participate in competition on **Object Oriented Java Programming**
- Attended workshop on **HTML** on Lets Upgrade.
- Solved hundred's Real time examples using JAVA Programming language

Declaration :

I hereby declare that all the above said facts are true to the best of my knowledge.
